

Danny Anger

U11 Development Coach

A former Sun County Panther himself, Danny's playing career took him to the OHL with the Sarnia Sting before he continued at the University of Windsor, competing in OUA hockey. His deep passion for the game led him to found Danger Hockey Development, Windsor's premier hockey development company, where he has trained and mentored players at all levels.

Beyond coaching, Danny holds a business and law degree from the University of Windsor and currently works in the Secretariats Office at the University. His 10+ years in the sports agency business have allowed him to build strong relationships with OHL scouts, general managers, and NCAA programs, giving his players an unmatched advantage when it comes to exposure and advancement opportunities.

With 15 years of coaching experience, including three seasons at the Junior C level with the Essex 73s and 12 years within the Sun County system, Danny has built a proven track record of success. His accomplishments include:

OHF/Alliance Championship (2005s)

Two consecutive Alliance Championships (2009s)

Winter Games Gold Medal (2009s)

Multiple players projected to be drafted in the 2025 Ontario Priority Draft.

Throughout his career, Danny has helped countless players reach the NHL, move on to the OHL, and many more advance to Junior hockey. His commitment to player development goes beyond the ice – he builds strong rapport with his players and families, ensuring that each athlete is not only prepared for the next level of hockey but also for life beyond the sport.
